Index to Volume 46

The Index to Volume 46 is composed of three parts; an Author Index, a Subject Index and an Advertisers' Index.

Author Index

All contributing authors are listed alphabetically with the surname first and initials following. If there is more than one author, the submission title is documented under the author name which appeared first when published in the *Journal*. All other authors are listed referring to that name.

Subject Index

The Subject Index is comprised mainly of terms found in the "Key Words" section of abstracts, and also from principal words selected from titles listed in the Table of Contents of each issue. Separate sections in the Subject Index identify titles not found in the Table of Contents under the headings of "Book Reviews" and "Letters to the Editor". Also itemized separately are

"Editorials" and the "President's Report". Journal and Society business can be found under "Canadian Journal of Hospital Pharmacy" and "Canadian Society of Hospital Pharmacists".

Advertisers' Index

The Advertisers' Index lists the company name followed by sub-headings of the products advertised. The issue number (as identified below) precedes the page number where the advertisement appears.
